CLEANERS

WHITE PVC (mass)

1

PVC CLEANER 120 ANTISTATICUM

Solvent based, strongest cleaner for white PVC, with antistatic effect.

- Removal of heavy dirt
- Removal of small scratches

Packaging:

500ml – 15 pieces/cardboard
1000ml – 6 pieces/cardboard

PVC CLEANER 140 ANTISTATICUM

Solvent based, strong performing cleaner for white PVC, with antistatic effect.

- Removal of heavy dirt
- Slightly softer than PVC Cleaner 120

Packaging:

500ml – 15 pieces/cardboard

PVC CLEANER 480 CREME/MILK

Water based creamy cleaner for white PVC and white plastics (even for white garden furniture)

- Slightly abrasive for soot and rust spots
- Not flammable
- Advised for private usage

Packaging:

500ml – 12 pieces/cardboard

CLEANERS COLORED PVC

PVC CLEANER 20

Solvent based strong cleaner for colored PVC with foil.

- Non-aggressive for PVC and foil
- Ideal to degrease and to remove dirt, glues, sticker residues
- Fast drying
- Antistatic effect

Packaging:

500ml – 15 pieces/cardboard

PVC CLEANER 490 (STRUCTOCLEAN)

Neutral water based PVC cleaner for colored PVC (with foil).

- Free from acids and alkaline components
- Advised for private usage
- For frequent maintenance

Packaging:

500ml – 15 pieces/cardboard

CLEANERS

ALUMINUM

1

ALUCLEAN

Neutral water based aluminum cleaner for all types of aluminum.

- Free from acids and abrasives
- Can be diluted with water
- Advised for private usage
- For frequent maintenance

Packaging:

500ml – 12 pieces/cardboard

ALUPRO PROFESSIONAL ALU CLEANER

Solvent based aluminum cleaner for each professional that can be applied to every type of aluminum. To be used to clean the surface before gluing.

- Removal of adhesives rests, non-cured PU-foam, sticker residues, etc.
- Strong degreasing character
- Fast drying and antistatic

Packaging:

500ml – pieces/cardboard

CLEANERS ALUMINUM

ALUCARE

Renovating dry cleaner for strongly weathered aluminum, which also protects afterwards.

- Removal of weathering and puncture marks
- Restauration of color and brightness
- Avoid to use on texture lacquer

Packaging:

500ml – 12 pieces/cardboard

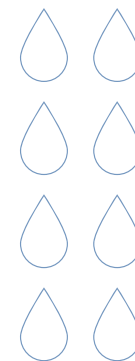

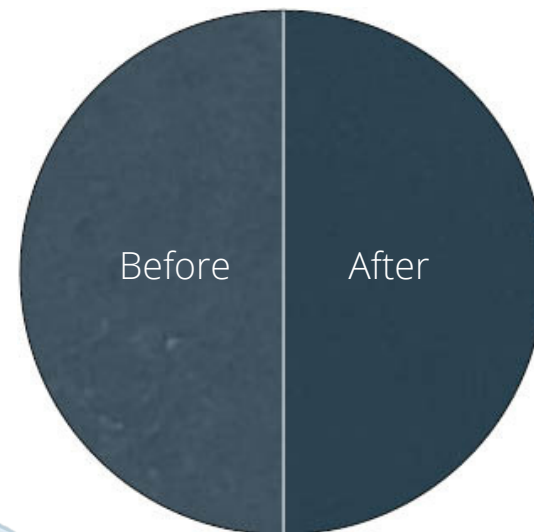

ALURENO SURFACE RENEWER

Specifically developed to clean and renew each type of weathered aluminum

- Recovers original view even in terms of strong UV-weathering
- Feeds surface and ensures long lasting original color

Packaging:

500ml – 12 pieces/cardboard

CLEANERS MAINTENANCE SETS

1

ALUMINUM

Maintenance set for private usage for windows and doors, for each type of aluminum. Maintenance by using the right products will ensure a longer lasting lifespan of the aluminum.

This aluminum maintenance set contains 2 bottles of 100ml (AluClean and AluReno) and an instruction sheet.

It is possible to personalize this box in private label.

PVC

Maintenance set for private usage for windows and doors, for each type of PVC (white and colored). Maintenance by using the right products will ensure a longer lasting lifespan of the PVC.

This PVC maintenance set contains 2 bottles of 100ml (Cleaner 480 and Cleaner 490 structoclean) and an instruction sheet.

It is possible to personalize this box in private label.

2

SURFACE TREATMENT

CEMENT CLEANER 100

The cement cleaner is appropriate to remove chalk and cement residues from all types of PVC and aluminum.

- Cleans and degreases
- Removal of plastering

Packaging:

500ml – 6 pieces/cardboard
500ml – 12 pieces/cardboard

DEGREASER1000/2000

The degreaser is extremely performant to clean and degrease all types of surfaces before adhesion.

- Antistatic effect

Packaging:

500ml – 6 pieces/cardboard
500ml – 12 pieces/cardboard

ANTIRIS ECO 300 GLASS CLEANER

The Antiris Eco 300 glass cleaner is a strong white creamy cleaner, specifically developed to remove glass contamination

- Removes rainbow stripes, chalk residues, oil stains or residues of silicone

Packaging:
